

PROCEEDING TO ADDRESS THE CONTINUED AVAILABILITY OF UNBUNDLED HIGH CAPACITY LOOPS AT CERTAIN LOCATIONS AND UNBUNDLED HIGH CAPACITY TRANSPORT ON CERTAIN ROUTES

On August 21, 2003, the Federal Communications Commission (FCC) issued its Triennial Review of Section 251 Unbundling Obligations of Incumbent Local Exchange Carriers Order ("TRO"). In its Order, the FCC delegates to the States authority to undertake certain analyses in accordance with Federal guidelines. Under the TRO, State commissions acquire certain fact finding responsibilities and are instructed to undertake analyses which will affect incumbent LECs' unbundling obligations for certain network elements in particular areas. Among other things, the TRO required State commissions to analyze the continued availability of unbundled high capacity loops at certain locations and of unbundled high capacity transport on certain routes. The Public Service Commission of South Carolina's role is a fact-finding role to determine whether impairment exists for competitive local exchange carriers within the State of South Carolina and within local markets in South Carolina.

A copy of the FCC's Triennial Review Order is on file in the offices of the Public Service Commission of South Carolina, 101 Executive Center Drive, Saluda Building, Columbia, South Carolina 29210.
